

The SI fills the need for a more subtle light source. This luminaire is an excellent choice for subtly illuminating small elements in residential courtyards or intimate seating areas. When used with the clear lens positioned 8-12" from a stucco wall, the SI will produce its signature elliptical scallop light pattern.

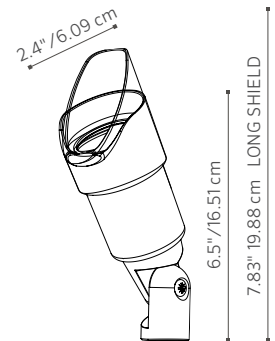

SI: Up Light

Sometimes Less is More

When a setting calls for more subtlety, choose the SI to add just the right amount of illumination. The SI can be used to softly accent landscape features, or strategically placed to wash walls and add interest. A choice of powder coat finishes, color lenses, and mounting options provide additional design possibilities.

Note: This fixture is designed for up lighting only.

SI: Up Light

< LONG SHIELD

FACTORY INSTALLED OPTIONS: Order 1 + 2 + 3 (optional) + 4 (optional) + 5
