DESIGN IN FULL COLOR
WITH MY DESIGN LIGHTING

Landscape & Architectural Lighting

FXLuminaire®

Illuminate a World of Vibrant Possibilities

My Design from FX Luminaire brings your illumination ideas to life — now in full color.
With intuitive app control, an exportable programming guide, and 30,000 customizable colors, this powerful tool simplifies planning, accelerates setup, and showcases the full potential of Luxor® Technology — all in just a few clicks.

Close More Deals with Color

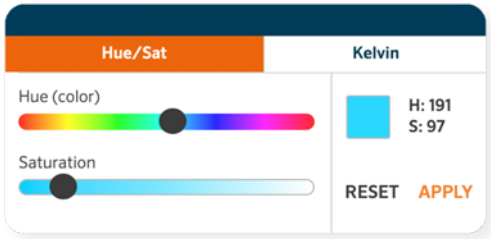

Expand your design capabilities and win more projects with vibrant, dynamic lighting. My Design's Night Mode lets clients preview after-dark effects that enhance curb appeal, personal style, and overall impact.

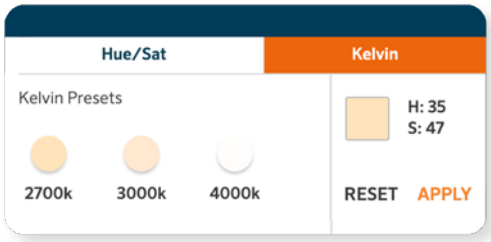

Unlock upselling opportunities, speed up approvals, and streamline installations — driven by Luxor's smart control and flexibility. With anytime cloud access, you can adjust settings and refine layouts remotely, saving time and keeping projects moving smoothly.

Power Projects with Pro Color Tools

These advanced color features help you work faster, customize with precision, and deliver standout results.

- **Programming Guide:** Input hue and saturation values directly from the My Design screen into the Luxor Controller for fast, accurate setup.
- **Color Exporting:** Download a Luxor database file to load color data directly into the controller and reduce programming time.
- **Color Palette:** Access up to 30,000 color values to create bold, custom designs.
- **Color Temperature Presets:** Select accurate white tones with built-in Kelvin presets for consistent results.

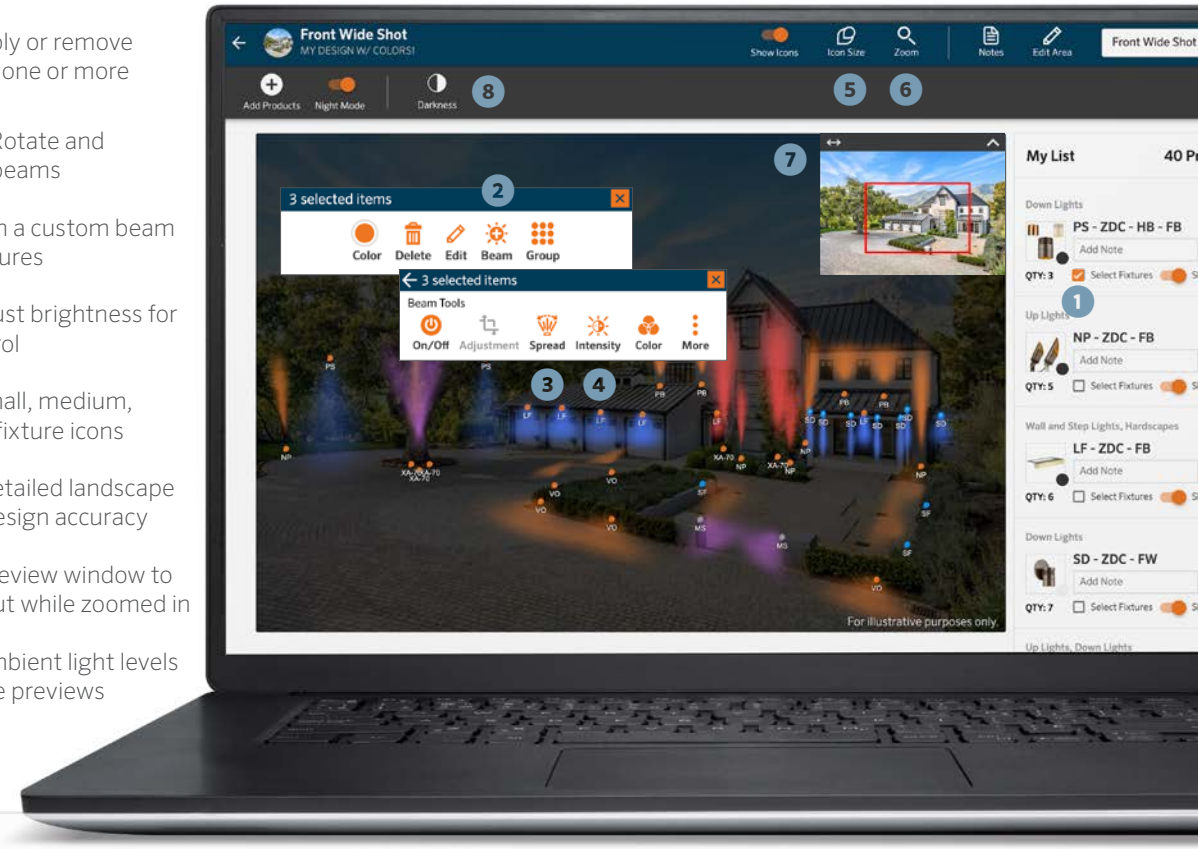

FXLuminaire

Deliver Impact with Night Mode Precision

Intuitive tools fine-tune every detail of your lighting layout.

1. **Add Light:** Easily apply or remove lighting effects from one or more fixtures
2. **Beam Adjustment:** Rotate and fine-tune individual beams
3. **Beam Spread:** Assign a custom beam angle to multiple fixtures
4. **Beam Intensity:** Adjust brightness for precise lighting control
5. **Icon Size:** Choose small, medium, large, or extra-large fixture icons
6. **Zoom:** Zoom in on detailed landscape images for greater design accuracy
7. **Navigate:** Use the preview window to pan across your layout while zoomed in
8. **Darkness:** Modify ambient light levels for realistic nighttime previews

How to Build a Layout in Minutes

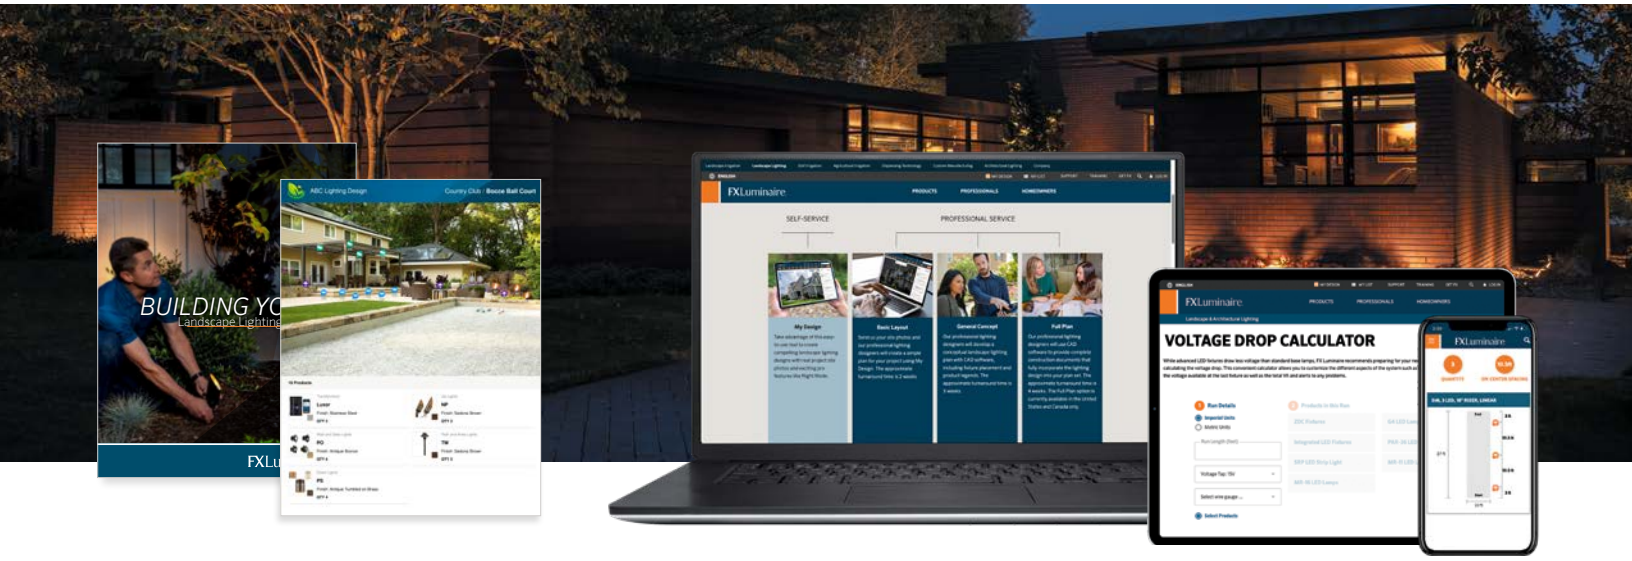

Creating a polished, full-color proposal with My Design Lighting is fast and easy — no technical experience required. Just follow these simple steps.

1. Log in to your free account at fxl.com/mydesign. Upload site images and divide the landscape into areas.
2. Drag and drop fixtures into each area.
3. Use Night Mode to customize the light placement, color, and brightness.
4. Download a complete product list and send it to your local distributor. Follow the installation plan to bring your design to life.

Reinforce Your Brand with Every Proposal

My Design's branded documents, clear visuals, and organized proposals give you a professional edge to build credibility, earn client trust, and enhance the customer experience — from proposal to installation.

- **Branded Proposals:** Add your company logo to promote your brand.
- **Project Overviews:** Export detailed project summaries, complete with a printable PDF sell sheet for easy sharing.

Work Smarter with Project-Ready Tools

Along with My Design, FX Luminaire offers additional tools and resources to help you design, sell, and install lighting systems more efficiently — and grow your business with every project.
